PROJECT OVERVIEW

PROJECT DESCRIPTION

- EV is a thoughtfully planned residential community in peaceful Bqosta, Saida, offering affordable, quality apartments in medium-rise buildings. Surrounded by nature with sea and mountain views, it provides a tranquil lifestyle near essential amenities.
- Secluded compound on a low traveled village road with a private entrance yet within 2 minutes from inhabited areas.
- The project features reliable infrastructure, maintenance, parking, landscaped walkways, waste management, 24/7 security, and incorporates sustainability features. Future amenities may include a gym, cafeteria, multipurpose hall, and business center.

TARGET MARKET

The target market includes Saida and its surrounding areas, focusing on these key resident groups:

Young Professionals	Seeking convenient access to work, amenities, and vibrant urban life alongside a peaceful home.
Families	Looking for spacious homes near quality schools and community facilities.
Retirees	Valuing a quiet, low maintenance lifestyle with easy access to healthcare and recreation.
Expats	Desiring housing close to family, with easy access to Beirut but away from city congestion.

PROJECT HIGHLIGHTS

PAYMENT PLAN OVERVIEW

PAYMENT PLAN

The standard payment plan is as follows:

- 25% down-payment
- 60% spread over 12 equal quarterly installments
- 10% upon apartment delivery
- 5% upon registration of ownership

A flexible payment plan is available for qualified buyers, with installments extended over a period of up to 100 months, making ownership easier and more accessible than ever.

FLEXIBILITY & INCENTIVES

Customized installment plans may be available for qualifying buyers.

Early Commitment Option: Buyers may secure a unit in buildings that have not yet begun construction through a **Promise to Sell / Undertaking to Purchase Agreement** with a **deposit** equal to **5%** of the unit price.

FINANCING OPTIONS

A collaboration with a banking partner can be explored to offer financing solutions, providing buyers with additional flexibility and access to long-term payment plans.

STRATEGIC VALUE POINTS

Several factors contribute to the project's strong foundation and long-term viability:

DIFFERENTIATED OFFERING

EV is the first residential development of its kind in Saida and its surroundings, setting a new benchmark through innovative architecture, high-quality construction, sustainable design features, and thoughtfully curated community amenities.

STRONG MARKET DEMAND

The Saida region is experiencing a significant shortage of affordable, high-quality housing.

EV addresses this gap with competitively priced units that cater to a wide range of home seekers, offering quality living at accessible price points in a growing market.

DEVELOPMENT READINESS

Design phase is completed; permit process is actively underway. Construction is ready to begin, ensuring fast project mobilization.

PHASED CONSTRUCTION APPROACH

The project will be executed in phases, allowing for:

- **Early access to completed units**
 - buyers in initial phases can move in to their units sooner;
- **Price appreciation potential** – early buyers may benefit from value increases as the community grows and more phases are delivered;
- **Flexible commitment** – phased releases offer more choices to cater different budgets and timelines.

EXPERIENCED TEAM

The project is led by a qualified team with a clear vision, sound execution strategy, and commitment to transparency.
